

SaaS Trial Abuse Detection Dashboard

Risk scoring and behavioral analytics for detecting suspicious SaaS free-trial activity

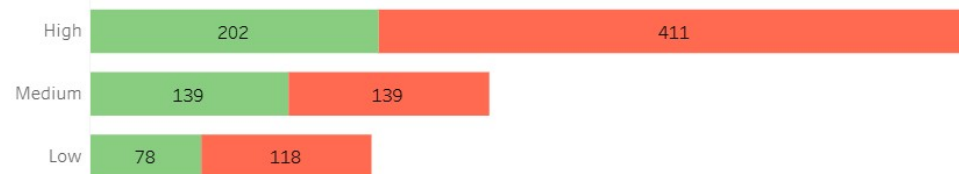

Risk Level

(All)

User Risk Level Distribution

Conversion Status by Risk Level

Average Platform Usage by Risk Level

High-risk users exhibit significantly higher platform activity than low-risk users.

Public Email Usage

High-risk users rely more heavily on public email providers rather than corporate/work domains.

Highest Risk Accounts Detected

	Risk Score	Platform Usage
U00841	150	2,210
U00997	150	2,014
U00370	150	1,127
U00527	150	1,117
U00688	150	1,108
U00877	150	1,101
U00161	150	1,028
U00379	150	1,008
U00732	150	1,007
U00697	150	1,001
